"Given the many venues we could have chosen to rent to conduct our training sessions in for our Annual User Conference, we decided to go with Learning Tree...and are very glad we did so. Not only were the facilities convenient to the rest of the conference, but also extremely professional and comfortable as well.

We especially appreciated all the help we received both preconference and during the event itself with the Learning Tree staff going the extra mile to provide our clients with a world-class customer experience. With regard to the technical support, Learning Tree was quick to respond and helped us maintain our professional composure."
